Audiovisual Systems Integrator

Industry

Audiovisual Industry

Location

Dallas, TX

Challenge

The client lacked internal resources that had all major audiovisual system disciplines

Services

Temp-to-Hire

Results

Utilizing a staffing provider, the client was able to hire a talented candidate that enabled their customer's facilities to operate at peak performance

BUSINESS PROBLEM

Several performing arts auditoriums and house of worship venues required state-of-the-art audiovisual capabilities to operate effectively. The client needed a specific audiovisual skill set in a lead technician to execute these deliverables for their customer on time and under budget.

ACTION TAKEN

The client entrusted NSC to find the right candidate to integrate complex, high-quality functionality for these buildings, reaching over 60,000 square feet. NSC delivered:

- A custom solution to fit the client's needs
- Access to top talent
- Onboarding, safety, and compliance training
- All pre-screening and hiring of talent

THE OUTCOME

Through the integration of audio, video, and control systems and commitment to quality and customer care, the lead technician provided the client a dependable employee that surpassed their expectations. This employee is now in a senior leadership role with the organization and contributes to their commercial division's considerable growth.
